Testimonials

Here below are just a small selection of the countless testimonials we have had from students and coaches who have been through our coach training programmes and also from organisations that we have had the pleasure to work with and conduct coaching interventions in.

"I have never before seen a large room of people as if charged with electricity. It was one of the most impressive, encouraging and motivating talks I have ever had the pleasure of hearing, and I have heard from many of the best."

"I was at a crossroads in my life where I knew there must be a better way forward than where I was currently heading. It was at this time when I met Gerry, and I've since maintained that our meeting was 'fate'. His motivational and training

"I have seen Gerard O'Donovan speak on a number of occasions over the last five years and I never fail to be entertained or learn something new. The skills he teaches are

an overwhelming urge to write you this message (I guess I fear my old gremlins might have returned by the morning and I wanted to make sure I have captured the moment). I just want to take the time to tell you and the other speakers from the weekend what a wonderful learning and growing experience it was. However the real reason for my contacting you is to tell you just how wonderful I have felt today! Usually when I have finished a

During this period, I have come into contact with many of the world’s finest trainers, motivational speakers and personal developers. EC Group members have been exposed to Anthony Robbins, Brian Tracy, Jim Rohn, George Zalucki, John Kalench to name a few.

attended one of Gerard O'Donovan's training seminars (and I have been to several), I realised that he is not merely a teacher, he is a self development specialist, dedicated totally to improving people. He lectures with the burning passion of a man who lives and breathes his subject. He believes in the phenomenal potential within us all and he believes (as do I) in his own unique ability to discover and develop this potential and set people on

Donovan. He has that rare ability to have an audience in the palm of his hand within a few seconds of appearing on-stage. His style is unique. He is direct but never offensive. He imparts those personal lessons with a frankness that is always tinged with humour. His knowledge of his subject is profound and he leaves a lasting impression."
